PANZICA CONSTRUCTION ANNOUNCED KEY EMPLOYEE PROMOTION & NEW HIRES

Cleveland, OH – Panzica Construction Company (www.panzica.com) the commercial construction management/design-build firm, today announced a recent staff promotion and the addition of three new employees.

Bill O’Hare, LEED AP, a 13-year Panzica veteran, was promoted to Senior Project Manager. He previously worked as Project Manager on some of the company’s largest buildings to date including Euclid Grand, One University Circle, and the Flats East Bank project. O’Hare is currently managing the Cleveland Public Library’s MLK Branch construction, as well as projects for Beacon Health System in South Bend, IN. O’Hare is a graduate of the University of Cincinnati and a LEED accredited professional.

“Bill O’Hare has been instrumental in leading our team to complete a few of our most complex recent projects.” said Mark Panzica, President. *“He has grown with our company for over a decade and exemplifies Panzica’s high standards of integrity in his work. I look forward to Bill’s continued leadership and guidance of our junior level staff as we continue to grow our team.”*

Danielle James has joined the Panzica team as a Project Manager after eight years of experience in the construction industry working in Southwest Florida. She holds a B.S. in Construction Management from Kent State University and has managed large scale projects for clients including Sarasota Memorial Hospital, Amazon, and Price Waterhouse Coopers.

After spending three years as an intern for Panzica, Emily Haldi has been hired as a full-time Project Engineer. A recent graduate of Kent State University's Construction Management program, Haldi gained experience working on the Gateway and Central Utility Plant projects at the Cleveland Museum of Natural History. She will continue as part of Panzica's team on the museum's expansion and renovation.

Leo Bell was also recently added to the Panzica team as a Project Engineer. He is a graduate of the Ohio State University with a degree in Construction Systems Management and currently works in support of Panzica's preconstruction and estimating team on multiple projects.

ABOUT PANZICA

Since 1956, Panzica Construction Company has grown to be one of the premier construction management and design-build firms delivering quality construction in public, private, healthcare, education, and industrial markets, along with adaptive reuse of existing buildings. Recent projects include some of the region's most highly-profiled projects including One University Circle, the Cleveland Museum of Natural History, and INTRO – the largest mass timber residential building in the country!
